

SUNRISE COLLEGE OF NURSING, DAHOD

(Vision, Mission, Philosophy & Objectives)

Vision

To be a center of excellence in nursing education, fostering competent, compassionate, and ethically grounded nursing professionals who contribute effectively to the healthcare system and improve the quality of life of individuals, families, and communities.

Mission

The Sunrise College of Nursing is committed to:

1. Providing quality nursing education in accordance with standards laid down by the Indian Nursing Council and Gujarat Nursing Council.
2. Preparing graduates to deliver holistic, evidence-based nursing care in diverse healthcare settings.
3. Promoting research activities and critical thinking to improve nursing practice and healthcare outcomes.
4. Developing professional competence, leadership skills, and accountability among students.
5. Instilling ethical values, compassion, and social responsibility in the nursing profession.
6. Encouraging participation in community health services and national health programs.
7. Supporting lifelong learning and continuing nursing education.

Philosophy

We believe that:

- Health is a dynamic state of physical, mental, social, and spiritual well-being.
- Nursing is a noble profession and service-oriented discipline dedicated to the care of individuals, families, and communities.
- Every individual has the right to receive quality healthcare services without discrimination.
- Nursing education should be student-centered, integrating theory with clinical practice.
- Learning is a continuous process that promotes personal and professional growth.

- Nurses play a vital role in health promotion, disease prevention, and rehabilitation.
- Ethical principles and professional standards are essential in nursing practice.

Objectives

The objectives of Sunrise College of Nursing, Dahod are to:

1. Prepare students to provide comprehensive nursing care using the nursing process.
2. Develop the ability to apply scientific knowledge and clinical skills in patient care.
3. Train students to function effectively as members of the healthcare team.
4. Foster critical thinking, problem-solving, and decision-making abilities.
5. Promote engagement in nursing research and evidence-based practice.
6. Enable graduates to take up leadership and managerial roles in healthcare settings.
7. Encourage students to participate in community health and outreach programs.
8. Uphold ethical, legal, and professional standards in nursing practice.
9. Prepare nurses for continuing education and advanced studies.
